YOUNG MEN, STAY EAST.

Denver Littleton Union Herald.

Most confess that I have been disappointed. Denver is a busy town, but outside of this place there isn't much of Colorado. You may believe as much as you please about Utica people doing well here, and set the rest down as all talk—nothing more. For instance, I met a carpenter here who is well known to you on Genesee street. He was glad to see me from Utica; he received \$2.25 per day in Utica; here he gets \$2.50 per day. It cost him \$4 per week to live in Utica, here \$7 per week at the lowest, and not as good as you can live in Utica for \$3. A man I have heard of from Utica is doing well, with one exception, would gladly be back in Utica if it was not for pride or fear that they could not get their old job. I met a young man the other day driving a dirt cart at \$20 per month. I remembered him in Utica, a nobby young chap, who would hardly recognize a common person. His parents are well to do, but he is ashamed to go home again. After living here a short time, young fellows do not care to leave as they frequently get into loose habits. Gambling seems to be the most profitable business, and leads everywhere else, from the newsboy up to the merchant. There are 6,000 people in Leadville "dead broke," and they are dying by the dozens. The road from here to Leadville is lined with prospectors, gamblers, bunco-steerers, cut-throats and thieves. Along the way are dead horses, mules and bronchos, and the stench is fearful. Nearly all that have money start back after staying there a day or two, but the majority "go broke" and fly to the drinking and gambling shops to see if they can not pick up enough to get away with. Poor devils come here from Leadville on every train, and present sorry sights.

It is a shame for the veteran newspapers and railroad companies to induce so many poor people come here. That there is a large amount of wealth in minerals in the mountains no one can doubt, but there are from three to four times as many people in Colorado as it can support. Any man who can get a fair living in the East, with the same economy, will make more money than he can here unless he happens to be fortunate enough to strike a mine—one chance in ten thousand. You have heard of two men having a claim that they had been offered \$150,000 for. I saw one of them to-day and should be afraid to offer him \$100 for it. I have seen from fifteen to twenty Utica men and with one exception, they say that they were doing better in Utica than they are here. If you see any person with just enough money to get here, advise him to stay at home and attend to his business, be it ever so humble. I am going to some part of the country where I can occasionally see a green tree or a blade of grass, and have something better than clouds of sand, that are as blinding as an Eastern snow storm, every other day.

The Feminine Mouth.

A person who has made the feminine mouth the subject of much study volunteers his conclusions to males with sweethearts. They are as follows:

If her mouth is very small there is not much mind, but over much shallow sentiment. If she has a very large mouth she will possess a good brain, but the trouble is in kissing it. Large mouths put a man to an artistic test; he will be driven to his wits end whether to begin at one corner and conclude on the other, or to make a heroic dash at the middle and endeavor to reach both corners. But if you are a kissing artist it can be covered nicely enough.

If your sweetheart has a coarsely formed mouth she will be sensual and full of strong, coarse points of character, and will raise a row in the family. If she has a delicately formed mouth, with round lips of a velvety color, she will have much sentiment and perfection of character, but will not astonish by brilliancy of conception or execution.

It is a good mouth because it is sensible and submissive. Shun blue-lipped and thin-lipped women, they will bore you to death with literature or woman's rights, theorize while you want your dinner, or spoil your temper by their red-hot scolding tongues.

Novel Swimming Device.

A Frenchman, in Lyons, named Gamonet, has invented a novel and whimsical practical device for swimming. Inflated India-rubber bags support the swimmer, and enable him to sit upright with head and shoulders above water, so that he can propel himself. The principal novelty of this contrivance lies in the propelling apparatus, which is so constructed as to collapse when pulled forward, and to spread out when pushed back, like a duck's foot when swimming. The propellers are suspended by chains or cords attached to the buoyant jacket.

Estimate Dr. J. J. Caldwell, Baltimore, Md., states "I have used Golden's Liebig's Liquid Extract of Beef and Tonic Invigorant largely in debility, febrile and nervous diseases, and I have found it one of the most reliable of nutritive tonics now in use or to be found in pharmacy."

GENTLEMEN:—Please send by express one dozen "Constitution Water." The article is selling well. Two young ladies of our town, who have suffered much from those complaints which nearly all females are more or less subject to, have been entirely cured by it. Their names will be given to any lady wishing to make inquiries of them in person.

A FLOOD OF PAUPERS.

New York Tribune.

Among the immigrants who were landed at Castle Garden by the steamship Westphalia, from Hamburg, on Wednesday, the commissioners of emigration have discovered sixteen families, numbering seventy-nine persons, who come here utterly destitute, having been sent by the government authorities of Bavaria to relieve the community of the burden of supporting them. Affidavits from them show that there is a large emigration from the villages in the Spessart mountains to the United States of persons who are either unable or unwilling to earn a living in a legitimate way, and that the authorities secure them passage on the Hamburg-American line, give them a small amount of pocket money, and then have their regularly appointed agents see that the paupers actually sail on the steamer. Some of those who have arrived have been professional beggars for years, one is a discharged railroad watchman, who was convicted of larceny and had served a term in the penitentiary; another is a poacher, others are not willing to learn an honest living, while some are anxious to obtain employment. They represent that there is almost a famine in the part of country they come from, and that the people are destitute and wish to emigrate. They have neither friends nor relatives in this country, and in the absence of any provision for this class of people, the commissioners of emigration are at a loss as to the best way of disposing of them.

A PET TIGER.

London Telegraph.

Among the pets which are now coming into fashion are, it would seem, playful young tigers. At any rate, one which is described as a "beautifully marked and splendidly striped tigress," and whose mirthfulness and docility were especially dwelt upon, was sold a few days ago in London for fifty-two guineas. It is not stated what the new owner proposes to do with this very interesting acquisition, but for the sake of his neighbors it is sincerely to be hoped that he will keep the "elegant creature" in a cage. It was one of the most playful tigers ever known in India which, getting loose on a fine summer's evening in the walled city of Jeypore, devoured or disposed of more than twenty of the Rajah's loyal subjects before its popularity was satisfied, and not long ago a delightfully docile specimen that walked off with its keeper in the vicinity of Baroda. There is something, no doubt, exceedingly fascinating to certain minds in the idea of controlling the immense, and the same person who could take pleasure in curbing a royal Bengal would be equally delighted could he play with a thunder-bolt. But, while the latter species of amusement would only concern the individual himself, the experiment of keeping a "play" tiger may affect the neighborhood. The most beautifully striped tigress, if once loose, might thin down the population of a parish with startling rapidity.

NEW YORK, May 19.—A dispatch from Scranton says: "Consternation exists in the minds of many residents of the Fifth Ward, in consequence of the disastrous cave-in at the Oxford mine. This colliery was abandoned some years ago, and recently the ground underlying Scranton avenue and Jackson street began to settle in an alarming manner. Last night the stores of Michael Toubill and John O'Hara, Thos. McNichols and William Gallagher were thrown from their foundations, and the walls are full of large fissures. The houses owned by Mr. Walsh shook with such violence that the forward portions were raised nearly four feet. Huge gaps are seen in the streets, and the rails on the Lackawanna and Bloomsburg railroad are sinking. Many gardens were spoiled and wells destroyed. People are moving from the district as quickly as possible, as more alarming results are apprehended."

LONDON, May 19.—It is believed the Queen's speech, on the reassembling of Parliament to-morrow, will allude very briefly to the results of the general election. Sympathetic reference will be made to the distress in Ireland, but the tone regarding it will be hopeful. Measures for the amelioration of the condition of the tenant farmers will be promised. The renewal of the Ballot act and the introduction of a census bill may claim mention in connection with the maintenance of European peace. The speech will announce the dispatch to the Powers of a circular by Lord Granville, foreign Secretary, and indicate the reception it met with at the foreign courts. Allusion will be made to the pacification and reorganization now proceeding in South Africa.

PESTH, May 19.—The famine in North Hungary is increasing. Fourteen hundred persons at Szian, Komitat and Zemplin have no other food but grass, nettles and mushrooms. The Government has ordered the authorities to stop emigration, and the police have arrested some of the emigrants.

COUDERSFORD, POTTER CO., Pa. May 19.—At three o'clock yesterday afternoon a fire broke out in the rear room of Stebbins Bros.' store, used for storing oil. The town is without water supply or fire apparatus and nothing could be done to check the flames, which burned rapidly. By 5 o'clock every dwelling, store and place of business in the town, except the Cook House, Baker's Hotel, Mann's Insurance Hotel and the Journal printing office was laid in ashes. About 40 buildings in all were destroyed. Loss, \$200,000; insurance, \$75,000.

GOING FOR GRANT.

The Republican Convention Still in Session at Springfield.

The Situation at the Capital Last Night at a Late Hour.

Latest News from Other Points.

TOLEDO, May 19.—Wheat, \$1.17; cash; \$1.02; July. Corn, 42c.

[Special to the REPUBLICAN.]

SPRINGFIELD, ILL., May 20, noon.—The excitement attending the business of the state convention is still at fever heat, pending the report of the committee on credentials. Pursuant to adjournment, the convention met this morning at nine o'clock, but as the committee was not ready to report, another recess was taken until one p. m. Every hotel, office, and the sidewalks are thronged with people, all anxiously waiting for the result to be announced. It is generally conceded that as the Grant men have control of the convention and a working majority, not including the Cook county delegation, that delegates to the Chicago convention instructed for the General will be selected. It is expected that the proceedings this afternoon will be exceedingly warm, but nothing at all serious is apprehended.

SPRINGFIELD, May 20, 3.30 p. m.—The committee on credentials have not yet reported. J. R. M.

SPRINGFIELD, ILL., May 19.—The city is overwhelmed with visitors to the State Convention. It is the largest attendance ever known on similar occasions. As but 600 visitors' tickets could be issued, thousands were unable to gain admittance to the hall of the House of Representatives. The members of the State Central Committee, who distributed these tickets, have been besieged all day, and the corridors of the State House have been packed with an anxious throng, vainly seeking to gain admission.

All the Congressional districts, except the first three, held conventions during the forenoon to select members of the Committee on Credentials. In the several districts delegates were also selected to the National Convention.

The convention was called to order promptly at noon by Hon. A. M. Jones, Chairman of the State Central Committee. Prayer was offered by Rev. Robert Nourse, of Springfield. The call of the convention was read by Daniel Shepard, Secretary of the committee. Mr. Jones spoke briefly, saying that the Republicans had reason to be proud of its success in this State, and he felt certain that whatever this convention should do the Republicans of the State would heartily endorse. [Applause.] Mr. Jones nominated General Green B. Raum, the United States Commissioner of Internal Revenue, as temporary chairman. No other nomination was made, and General Raum was unanimously elected.

J. R. Mosser, of Decatur; A. H. Reed, of Flora; and J. H. Paddock, of Kankakee, were unanimously chosen temporary secretaries.

SPRINGFIELD, ILL., May 19.—The committee on credentials met at eight o'clock to-night. On motion the contested case of Greene county delegation was taken up. Mr. W. W. Ward of the Grant delegation, presented credentials, and Mr. C. Lynn, of the Blaine delegation, also presented credentials. Arguments were then heard from Messrs. W. W. Arnold and W. W. Ward for the Grant delegates, and Mr. C. Lynn for the Blaine delegates. The question presented was the regularity of the appointment of the delegates from four precincts to the county convention, each side claiming a majority in the county convention and the right to control the organization. The result was two conventions and two sets of delegates.

Mr. Chew moved that the committee recommend that the delegations be entitled to two votes each. Gen. Hurlburt seconded the motion. He said it appeared that there were an equal number of delegates, and that committees met in the same room. The motion prevailed unanimously.

A motion was made to take up the Cook county contest. Mr. Beardsley suggested that the committee adjourn until 8 o'clock to-morrow morning, and that the Cook county contestants be notified to be present. The motion prevailed by the following vote on call of roll: Ayes—Messrs. Ferry, Hurlburt, Smith, Beardsley, Emery, Hamilton, Branson, Prince, Nobleman and Halbert. Nays—Messrs. Grant, Sheridan, Burke, Moore, Chew, Brown and Graham.

At 8 o'clock to-night the Farwell Hall delegation met in the senate chamber for conference regarding the resolution adopted by the committee on credentials. The doors were closely guarded, and reporters rigorously ex-

cluded from even hearing distance.—Gen. Kneffner presided, and stated the object of the meeting. The management committee appointed on Tuesday night, was instructed to prepare an address to the committee, protesting against their right to impose any such test of loyalty before giving the delegation a hearing. A resolution was adopted instructing the committee to assure the committee on credentials and the convention of the fealty of the delegation to the Republican party and principles, and their confidence that the committee and convention would treat them fairly, and pledging their support to the regular nominees of the party.

SPRINGFIELD, ILL., May 19.—The result of to-day's sessions of the Convention gives the greatest satisfaction to the friends of General Grant, and there is no longer any doubt that Illinois will send a delegation to Chicago instructed to support her great hero and statesman, Gen. Grant. The campaign in his behalf has been splendidly managed from the outset, and in a method which compares most favorably and creditably with the bulldozing course adopted by the managers of the Blaine bureau.

There was a marked change during the day in the sentiments and feelings of the Grant men. Those who favored his nomination, but were at the same time admirers of Senator Blaine, have become an radical as the most pronounced Grant men, as a result of the injudicious course of the Blaine managers. The bulldozing policy adopted by these persons, the determination evinced by them to act the hog and make the most of their power whenever they had the slightest chance, and their open threats of bolting if their demands were not complied with, have not only resulted in making the Grant men solid and earnest in supporting his cause, but have also converted to his support many who preferred Washburne as their first choice and had intended to act in concert with the Blaine men.

Many of the Grant men were also disposed to admit the Farwell delegation, and would have thus voted had they not been driven away from their support. The members of the delegation, though loud in their protestations that they would accept nothing less than the seating of their full delegation, have weakened greatly, and were in a humble and downcast frame of mind last night. They came down with all the chances in their favor, but have absolutely frittered them away, and have been outgeneraled at every point. The Blaine and Washburne men throughout the State who supported them could not afford to go on record against the eminently fair and just resolution presented by Senator Logan, requiring all contestants to agree to abide by the decision of the Convention. This the Farwell delegation did not intend to do, unless it was in their favor, and it was a bitter pill for them to swallow. But they have taken the medicine, though with a very wary face, and cannot now bolt with any show of decency.

No one can foretell what the report will be made by the Committee on Credentials, but there will, doubtless, be two reports, and in any event the matter will be fought out on the floor. Everybody is feeling happy over the probability of a satisfactory adjustment of this difficulty, and there is no reason to believe that the Convention will not be able to conclude its business to-day promptly and harmoniously.

The sentiment of a majority of the delegates, so far as can be gathered from their conversation, seems to be in favor of seating 52 of the Farwell Hall delegation, and 40 of the Palmer House delegation, and the matter may be settled in this way.

INDIANAPOLIS, May 19.—The following is published in today's Journal: "A very distinguished Democrat of this city has received a letter from a Democratic ex-Governor of Mississippi, in which he says that if Grant should be nominated at Chicago, it would be impossible to prevent the colored men of that State from voting solidly for him, and that he would by that vote carry that State, unless prevented by fraud and intimidation."

## INVALIDS AND OTHERS SEEKING HEALTH,

**STRENGTH AND ENERGY,**  
WITHOUT THE USE OF DRUGS, ARE RE-  
QUESTED TO SEND FOR THE ELECTRIC  
REVIEW, AN ILLUSTRATED JOURNAL,  
WHICH IS PUBLISHED  
FOR FREE DISTRIBUTION.

IT TREATS UPON HEALTH, HYGIENE, and Physical  
Education, and is a complete encyclopedia of  
information for invalids and those suffering from  
debility, nervousness, and all the ills that  
attend a weak and nervous system. Every  
subject that bears upon health and human happiness,  
receives attention in its pages, and the many  
questions asked by suffering invalids, who have  
been told that they are incurable, are answered,  
and the subject of Electric Bells, a new medicine,  
and the latest and one of the most reliable  
of all the remedies for all the ills that attend  
debility, is fully explained.

**YOUNG MEN**  
And others who suffer from Nervous and Physical  
Debility, Loss of Manly Vigor, Premature Ejaculation  
and the many gloomy consequences of early  
indulgence, are especially benefited by reading its  
contents.

THE ELECTRIC REVIEW explains the unmitigated  
frauds practiced by quacks and medical impostors  
who profess to "cure" nervousness, and points out the  
only safe, reliable, and effective remedy, viz.,  
Electric Bells, and the subject of "Early Vigor  
and Bodily Energy."
